ANALYTIC SUBJECT INDEX

PHYSICA B

Absorption spectroscopy
– Absorption spectrophotometric studies of some lanthanide and actinide halides under pressure - Peterson et al. 144B (1986) 85
Actinide metals
– Systematics of f electron delocalization in lanthanide and actinide elements under pressure - Benedict et al. 144B (1986) 14
– On the structures of the 'distorted fcc' phase of rare earths and actinides. Some more possible structures - Sikka and Vijayakumar 144B (1986) 23
Actinide nitrides
– Relativistic effects in heavy elements - Brooks et al. 144B (1986) 1
Actinide trihalides
– Absorption spectrophotometric studies of some lanthanide and actinide halides under pressure - Peterson et al. 144B (1986) 85
Al alloys (see *Electric field gradient*) 144B (1987) 368
Alloys (see *Electric field gradient*) 144B (1987) 368
Amorphous systems
– Quasicrystalline structural diffusion in — - Baer 144B (1987) 145
Anisotropic stress
– Pressure–volume behaviour of UP, USb and UTe - Vedel et al. 144B (1986) 61
Antiferroelectric short-range order (see *$BaMnF_4$*) 144B (1987) 310
Ar (see *Viscosity*) 144B (1987) 267
Atomic volumes
– A new look at the — of the β-form of the transplutonium metals - Haire et al. 144B (1986) 19

$BaMnF_4$
– Antiferroelectric short-range order of — - Hidaka et al. 144B (1987) 310
Bulk modulus
– Electronic structure of the uranium–3d transition metal Laves phases - Eriksson et al. 144B (1986) 32
– Elastic properties of single crystal uranium compounds - Neuenschwander et al. 144B (1986) 66
– High-pressure X-ray diffraction on neptunium compounds: recent results for NpAs - Dabos et al. 144B (1986) 79

$CeCu_6$ (see *Kondo lattice*) 144B (1987) 391
$CeCu_2Si_2$ (see *Superconductivity*) 144B (1987) 193
Cerium metal
– On the use of distorted fcc structures for describing high-pressure phase - Gerward et al. 144B (1986) 72

C_2H_6
– Nuclear magnetic resonance in solid ethane at high pressure. I. Proton spin relaxation - Schutte et al. 144B (1987) 152
– Nuclear magnetic resonance in solid ethane at high pressure. II. The phase diagram of solid ethane - Schutte et al. 144B (1987) 357
Ch_4 (see *Viscosity*) 144B (1987) 267
Coherence (see *Nuclear relaxation rate*) 144B (1987) 193
Conductivity (see *Si*) 144B (1987) 341
Cs (see *Liquid alkali metals*) 144B (1987) 105
CsCl type structure
– High-pressure X-ray diffraction on neptunium compounds: recent results for NpAs - Dabos et al. 144B (1986) 79
$CsNO_3$
– Thermodynamic properties of molten nitrates under pressure obtained from velocity of sound - Petitet et al. 144B (1987) 320
Cu alloys (see *Electric field gradient*) 144B (1987) 368
Cubic-close-packed phase
– A new look at the atomic volumes of the β-form of the transplutonium metals - Haire et al. 144B (1986) 19
$CuSO_4 \cdot 5H_2O$
– High-temperature spin dynamics as studied by electron paramagnetic resonance (EPR) in the quasi-one-dimensional Heisenberg magnetic system — - Gharbage et al. 144B (1987) 200

Delta-plutonium
– Relativistic effects in heavy elements - Brooks et al. 144B (1986) 1
Diamond anvil cell
– Absorption spectrophotometric studies of some lanthanide and actinide halides under pressure - Peterson et al. 144B (1986) 85
Dielectric properties (see *Si*) 144B (1987) 341
Diffraction line splitting
– On the use of distorted fcc structures for describing high-pressure phase - Gerward et al. 144B (1986) 72
Diffusion (see *Amorphous systems*) 144B (1987) 145
Disordered phases (see *Amorphous systems*) 144B (1987) 145
Dispersion interactions (see *Liquids*) 144B (1987) 351
Distorted fcc phase
– On the structures of the 'distorted fcc' phase of rare earths and actinides. Some more possible structures - Sikka and Vijayakumar 144B (1986) 23
Distorted fcc structures
– On the use of — for describing high-pressure phase - Gerward et al. 144B (1986) 72

Elastic constants
– Elastic properties of single crystal uranium compounds - Neuenschwander et al. 144B (1986) 66
Electric field gradient
– Calculation of — in transitional and nontransitional dilute cubic alloys - Singh et al. 144B (1987) 368
Electrical resistance
– AlB_2 to Laves phase transition in $ThAl_2$ under pressure - Godwal et al. 144B (1986) 44

Electrical resistivity
– Examination of the effect of pressure on the electronic structure of U_3X_4 compounds (X = P, As, Sb) - Henkie et al. 144B (1986) 92
– Theoretical study on the anomalous — in the Kondo lattice intermetallic compound - Zhao et al. 144B (1987) 391
Electron–electron interactions
– Expression for the total number of electrons participating in plasmon oscillations in metals - Goel et al. 144B (1987) 190
Electron gas
– Surface plasmon dispersion relation for the plane-bounded — - Harsh and Agarwal 144B (1987) 114
Electron–phonon interactions (see $Mg_{64}Al_{18}Ga_{18}$) 144B (1987) 173
Electronic structure
– — of the uranium–3d transition metal Laves phases - Eriksson et al. 144B (1986) 32
Enskog theory (see *Hard-sphere fluids*) 144B (1987) 267
EPR linewidth (see $CuSO_4 \cdot 5H_2O$) 144B (1987) 200
Equation of state
– Relativistic effects in heavy elements - Brooks et al. 144B (1986) 1
Equation of state (see *Liquids*) 144B (1987) 351
Ethane
– Nuclear magnetic resonance in solid — at high pressure. I. Proton spin relaxation - Schutte et al. 144B (1987) 152
– Nuclear magnetic resonance in solid — at high pressure. II. The phase diagram of solid — - Schutte et al. 144B (1987) 357
Europium metal
– The valence of Eu under high pressure - Röhler 144B (1986) 27

f–d gap
– High-pressure optical studies of uranium compounds (*Extended abstract*) - Syassen et al. 144B (1986) 91
f electron delocalization
– Systematics of — in lanthanide and actinide elements under pressure - Benedict et al. 144B (1986) 14
5f electron delocalization
– Pressure-dependent hyperfine interactions in $NpAl_2$ - Litterst et al. 144B (1986) 41
Flow of He II (see *He II*) 144B (1987) 209
Flow states of He II
– On the motion of plugs of turbulence in the flow of helium II - Marees et al. 144B (1987) 292

GaAs (see *Photoexcited semiconductors*) 144B (1987) 376

Hard-sphere fluids
– Corrections to the Enskog theory for viscosity and thermal conductivity - Dymond 144B (1987) 267
He II
– Subcritical and supercritical non-turbulent flow of mass and entropy in superfluid ^{4}He - Marees et al. 144B (1987) 209
– On the motion of plugs of turbulence in the flow of helium II - Marees et al. 144B (1987) 292

^{3}He–^{4}He mixtures
– The thermodynamic properties of liquid — between 0 and 20 atm in the limit of absolute zero temperature - de Bruyn Ouboter and Yang 144B (1987) 127
Heavy fermions
– High-pressure magnetisation studies of some heavy-fermion uranium intermetallics - Louis et al. 144B (1986) 48
– Specific heat of heavy-fermion superconductors under pressure (*Extended abstract*) - Olsen et al. 144B (1986) 54
High pressure
– Systematics of f electron delocalization in lanthanide and actinide elements under pressure - Benedict et al. 144B (1986) 14
– A new look at the atomic volumes of the β-form of the transplutonium metals - Haire et al. 144B (1986) 19
– On the structures of the 'distorted fcc' phase of rare earths and actinides. Some more possible structures - Sikka and Vijayakumar 144B (1986) 23
– The valence of Eu under — - Röhler 144B (1986) 27
– Pressure-dependent hyperfine interactions in $NpAl_2$ - Litterst et al. 144B (1986) 41
– AlB_2 to Laves phase transition in $ThAl_2$ under pressure - Godwal et al. 144B (1986) 44
– High-pressure magnetisation studies of some heavy-fermion uranium intermetallics - Louis et al. 144B (1986) 48
– Specific heat of heavy-fermion superconductors under pressure (*Extended abstract*) - Olsen et al. 144B (1986) 54
– High-pressure studies of uranium and thorium compounds using synchrotron radiation - Staun Olsen et al. 144B (1986) 56
– Pressure–volume behaviour of UP, USb and UTe - Vedel et al. 144B (1986) 61
– High-pressure X-ray diffraction on neptunium compounds: recent results for NpAs - Dabos et al. 144B (1986) 79
– Investigation of magnetic properties of NpAs at — (*Extended abstract*) - Potzel et al. 144B (1986) 84
– Absorption spectrophotometric studies of some lanthanide and actinide halides under pressure - Peterson et al. 144B (1986) 85
– High-pressure optical studies of uranium compounds (*Extended abstract*) - Syassen et al. 144B (1986) 91
– Examination of the effect of pressure on the electronic structure of U_3X_4 compounds (X = P, As, Sb) - Henkie et al. 144B (1986) 92
High-pressure phases
– On the use of distorted fcc structures for describing high-pressure phase - Gerward et al. 144B (1986) 72
Hydrodynamics of superfluid ^{4}He
– Subcritical and supercritical non-turbulent flow of mass and entropy in superfluid ^{4}He - Marees et al. 144B (1987) 209
Hyperfine interactions
– Pressure-dependent — in $NpAl_2$ - Litterst et al. 144B (1986) 41
Hysteresis to phase transformation
– A new look at the atomic volumes of the β-form of the transplutonium metals - Haire et al. 144B (1986) 19
Hysteresis to phase transition
– High-pressure X-ray diffraction on neptunium compounds: recent results for NpAs - Dabos et al. 144B (1986) 79

Intra-5f transitions
– High-pressure optical studies of uranium compounds (*Extended abstract*) - Syassen et al. 144B (1986) 91
Irradiated silicon (see *Si*) 144B (1987) 341
Isomer shift
– Pressure-dependent hyperfine interactions in $NpAl_2$ - Litterst et al. 144B (1986) 41

K–Pb alloys
– Structure of liquid — (*Letter to the editor*) - Reijers et al. 144B (1987) 404
K (see *Liquid alkali metals*) 144B (1987) 105
Kondo lattice
– Theoretical study on the anomalous electrical resistivity in the — intermetallic compound - Zhao et al. 144B (1987) 391
Kr (see *Viscosity*) 144B (1987) 267

Lanthanide metals
– Systematics of f electron delocalization in lanthanide and actinide elements under pressure - Benedict et al. 144B (1986) 14
Lanthanide trihalides
– Absorption spectrophotometric studies of some lanthanide and actinide halides under pressure - Peterson et al. 144B (1986) 85
Lattice parameters
– A new look at the atomic volumes of the β-form of the transplutonium metals - Haire et al. 144B (1986) 19
Laves phases
– Electronic structure of the uranium–3d transition metal — - Eriksson et al. 144B (1986) 32
Li (see *Liquid alkali metals*) 144B (1987) 105
$LiIO_3$
– Lithium iodate: phase transitions revisited - Crettez et al. 144B (1987) 277
Liquid alkali metals
– Molecular dynamics calculations for the — near their melting points - González Miranda 144B (1987) 105
Liquid alloys (see *K–Pb alloys*) 144B (1987) 404
Liquids
– Dispersion interactions and equation of the liquid state - Niedrich 144B (1987) 351
LMTO method
– Electronic structure of the uranium–3d transition metal Laves phases - Eriksson et al. 144B (1986) 32

Magnetic anisotropy
– Relativistic effects in heavy elements - Brooks et al. 144B (1986) 1
Magnetic properties
– Investigation of — of NpAs at high pressure (*Extended abstract*) - Potzel et al. 144B (1986) 84
Magnetisation
– High-pressure — studies of some heavy-fermion uranium intermetallics - Louis et al. 144B (1986) 48
Manganese dihalides
– Photoluminescence and absorption of $MnCl_2$, $MnBr_2$ and MnI_2 - Ronda et al. 144B (1987) 331

Metallic compounds (see *Kondo lattice*) 144B (1987) 391
Metallic glasses (see $Mg_{64}Al_{18}Ga_{18}$) 144B (1987) 173
Metals (see *Liquid alkali metals*) 144B (1987) 105
$Mg_{64}Al_{18}Ga_{18}$
– Effects of the electron–phonon interactions on the thermoelectric power in simple metallic glasses - Sato et al. 144B (1987) 173
Mixed valence
– The valence of Eu under high pressure - Röhler 144B (1986) 27
$MnBr_2$ (see *Manganese dihalides*) 144B (1987) 331
$MnCl_2$ (see *Manganese dihalides*) 144B (1987) 331
MnI_2 (see *Manganese dihalides*) 144B (1987) 331
Molecular dynamics
– — calculations for the liquid alkali metals near their melting points - González Miranda 144B (1987) 105
Molten alkali nitrates
– Thermodynamic properties of molten nitrates under pressure obtained from velocity of sound - Petitet et al. 144B (1987) 320
Mössbauer spectroscopy
– Pressure-dependent hyperfine interactions in $NpAl_2$ - Litterst et al. 144B (1986) 41
– Investigation of magnetic properties of NpAs at high pressure (*Extended abstract*) - Potzel et al. 144B (1986) 84

Na (see *Liquid alkali metals*) 144B (1987) 105
NaCl type structures
– On the use of distorted fcc structures for describing high-pressure phase - Gerward et al. 144B (1986) 72
$NaNO_3$
– Thermodynamic properties of molten nitrates under pressure obtained from velocity of sound - Petitet et al. 144B (1987) 320
Neutron diffraction (see *K–Pb alloys*) 144B (1987) 404
Neutron diffraction (see $LiIO_3$) 144B (1987) 277
Noise, 1/f
– Interpretation of Schwantes's experimental data of secundary emission $1/f$ noise - van der Ziel 144B (1987) 205
Nonlinear transport theory (see *Photoexcited semiconductors*) 144B (1987) 376
$NpAl_2$
– Pressure-dependent hyperfine interactions in — - Litterst et al. 144B (1986) 41
NpAs
– High-pressure X-ray diffraction on neptunium compounds: recent results for — - Dabos et al. 144B (1986) 79
– Investigation of magnetic properties of — at high pressure (*Extended abstract*) - Potzel et al. 144B (1986) 84
Nuclear magnetic resonance
– — in solid ethane at high pressure. I. Proton spin relaxation - Schutte et al. 144B (1987) 152
Nuclear magnetic resonance (see C_2H_6) 144B (1987) 357
Nuclear relaxation rate
– Unconventional even parity superconductivity in UBe_{13} and $CeCu_2Si_2$ - Chen and Zhang 144B (1987) 193

Optical absorption
– Photoluminescence and absorption of $MnCl_2$, $MnBr_2$ and MnI_2 - Ronda et al. 144B (1987) 331
Optical reflectivity
– High-pressure optical studies of uranium compounds (*Extended abstract*) - Syassen et al. 144B (1986) 91

Pair potential (see *Liquid alkali metals*) 144B (1987) 105
Pentodes and triodes, secundary emission noise in (see *Noise, 1/f*) 144B (1987) 205
Phase diagram(s)
– Systematics of f electron delocalization in lanthanide and actinide elements under pressure - Benedict et al. 144B (1986) 14
Phase diagram(s) (see C_2H_6) 144B (1987) 357
Phase transition(s)
– Systematics of f electron delocalization in lanthanide and actinide elements under pressure - Benedict et al. 144B (1986) 14
– AlB_2 to Laves phase transition in $ThAl_2$ under pressure - Godwal et al. 144B (1986) 44
– High-pressure X-ray diffraction on neptunium compounds: recent results for NpAs - Dabos et al. 144B (1986) 79
– Investigation of magnetic properties of NpAs at high pressure (*Extended abstract*) - Potzel et al. 144B (1986) 84
– Absorption spectrophotometric studies of some lanthanide and actinide halides under pressure - Peterson et al. 144B (1986) 85
Phase transition(s) (see C_2H_6) 144B (1987) 357
Phase transition(s) (see $LiIO_3$) 144B (1987) 277
Photoexcited semiconductors
– Polar semiconductors under continuous photoexcitation - Tomé et al. 144B (1987) 376
Photoluminescence
– — and absorption of $MnCl_2$, $MnBr_2$ and MnI_2 - Ronda et al. 144B (1987) 331
Piezoelectric resonance (see $BaMnF_4$) 144B (1987) 310
Plasmon oscillations
– Surface plasmon dispersion relation for the plane-bounded electron gas - Harsh and Agarwal 144B (1987) 114
– Expression for the total number of electrons participating in — in metals - Goel et al. 144B (1987) 190
Praseodymium metal
– On the structures of the 'distorted fcc' phase of rare earths and actinides. Some more possible structures - Sikka and Vijayakumar 144B (1986) 23

Quasicrystals
– Quasicrystalline structural diffusion in amorphous systems - Baer 144B (1987) 145

Rare earth metals
– On the structures of the 'distorted fcc' phase of rare earths and actinides. Some more possible structures - Sikka and Vijayakumar 144B (1986) 23
Rb (see *Liquid alkali metals*) 144B (1987) 105
$RbNO_3$
– Thermodynamic properties of molten nitrates under pressure obtained from velocity of sound - Petitet et al. 144B (1987) 320

Relativistic effects
– — in heavy elements - Brooks et al. 144B (1986) 1

Schwante's data on 1/f noise
– Interpretation of Schwantes's experimental data of secundary emission $1/f$ noise - van der Ziel 144B (1987) 205
Second moment (see *Ethane*) 144B (1987) 152
Semiconductors (see *Photoexcited semiconductors*) 144B (1987) 376
Si
– Low-temperature radiation damage in silicon. I. Annealing studies on n-type material - Awadelkarim 144B (1987) 341
Sound velocity (see *Molten alkali nitrates*) 144B (1987) 320
Specific heat
– — of heavy-fermion superconductors under pressure (*Extended abstract*) - Olsen et al. 144B (1986) 54
Spin dynamics (see $CuSO_4 \cdot 5H_2O$) 144B (1987) 200
Spin–lattice relaxation (see *Ethane*) 144B (1987) 152
Spin–orbit coupling
– Relativistic effects in heavy elements - Brooks et al. 144B (1986) 1
Structural phase transitions (see $BaMnF_4$) 144B (1987) 310
Structure factor (see *K–Pb alloys*) 144B (1987) 404
Superconductivity
– Unconventional even parity — in UBe_{13} and $CeCu_2Si_2$ - Chen and Zhang 144B (1987) 193
Superfluid turbulence (see *He II*) 144B (1987) 292
Superfluid velocity (see *He II*) 144B (1987) 209
Surface plasmons
– Surface plasmon dispersion relation for the plane-bounded electron gas - Harsh and Agarwal 144B (1987) 114
Synchrotron radiation
– High-pressure studies of uranium and thorium compounds using — - Staun Olsen et al. 144B (1986) 56

$ThAl_2$
– AlB_2 to Laves phase transition in — under pressure - Godwal et al. 144B (1986) 44
Thermal conductivity
– Corrections to the Enskog theory for viscosity and — - Dymond 144B (1987) 267
Thermodynamic functions (see ^3He–^4He *mixtures*) 144B (1987) 127
Thermodynamic properties (see *Molten alkali nitrates*) 144B (1987) 320
Thermoelectric power
– Effects of the electron–phonon interactions on the — in simple metallic glasses - Sato et al. 144B (1987) 173
Thermopower
– Examination of the effect of pressure on the electronic structure of U_3X_4 compounds (X = P, As, Sb) - Henkie et al. 144B (1986) 92
Thorium compounds
– High-pressure studies of uranium and — using synchrotron radiation - Staun Olsen et al. 144B (1986) 56

Transition metals, 3d
– Electronic structure of the uranium–3d transition metal Laves phases - Eriksson et al. 144B (1986) 32
Transplutonium metals
– A new look at the atomic volumes of the β-form of the — - Haire et al. 144B (1986) 19

U_3As_4
– Examination of the effect of pressure on the electronic structure of U_3X_4 compounds (X = P, As, Sb) - Henkie et al. 144B (1986) 92
UBe_{13}
– Specific heat of heavy-fermion superconductors under pressure (*Extended abstract*) - Olsen et al. 144B (1986) 54
UBe_{13} (see *Superconductivity*) 144B (1987) 193
Ultrasound velocity
– Elastic properties of single crystal uranium compounds - Neuenschwander et al. 144B (1986) 66
UO_2
– High-pressure optical studies of uranium compounds (*Extended abstract*) - Syassen et al. 144B (1986) 91
UP
– Pressure–volume behaviour of UP, USb and UTe - Vedel et al. 144B (1986) 61
U_3P_4
– Examination of the effect of pressure on the electronic structure of U_3X_4 compounds (X = P, As, Sb) - Henkie et al. 144B (1986) 92
UPt_3
– High-pressure magnetisation studies of some heavy-fermion uranium intermetallics - Louis et al. 144B (1986) 48
– Specific heat of heavy-fermion superconductors under pressure (*Extended abstract*) - Olsen et al. 144B (1986) 54
Uranium compounds
– High-pressure studies of uranium and thorium compounds using synchrotron radiation - Staun Olsen et al. 144B (1986) 56
Uranium intermetallic compounds
– Electronic structure of the uranium–3d transition metal Laves phases - Eriksson et al. 144B (1986) 32
– High-pressure magnetisation studies of some heavy-fermion uranium intermetallics - Louis et al. 144B (1986) 48
Uranium nitride
– On the use of distorted fcc structures for describing high-pressure phase - Gerward et al. 144B (1986) 72
URu_2Si_2
– High-pressure magnetisation studies of some heavy-fermion uranium intermetallics - Louis et al. 144B (1986) 48
US
– High-pressure optical studies of uranium compounds (*Extended abstract*) - Syassen et al. 144B (1986) 91
USb
– Pressure–volume behaviour of UP, — and UTe - Vedel et al. 144B (1986) 61
– Elastic properties of single crystal uranium compounds - Neuenschwander et al. 144B (1986) 66

U_3Sb_4
– Examination of the effect of pressure on the electronic structure of U_3X_4 compounds (X = P, As, Sb) - Henkie et al. 144B (1986) 92
USe
– Elastic properties of single crystal uranium compounds - Neuenschwander et al. 144B (1986) 66
UTe
– Pressure–volume behaviour of UP, USb and — - Vedel et al. 144B (1986) 61
– Elastic properties of single crystal uranium compounds - Neuenschwander et al. 144B (1986) 66

Viscosity
– Corrections to the Enskog theory for — and thermal conductivity - Dymond 144B (1987) 267

X-ray absorption edges
– High-pressure studies of uranium and thorium compounds using synchrotron radiation - Staun Olsen et al. 144B (1986) 56
X-ray absorption spectroscopy
– The valence of Eu under high pressure - Röhler 144B (1986) 27
X-ray diffraction
– AlB_2 to Laves phase transition in $ThAl_2$ under pressure - Godwal et al. 144B (1986) 44
– High-pressure studies of uranium and thorium compounds using synchrotron radiation - Staun Olsen et al. 144B (1986) 56
– Pressure–volume behaviour of UP, USb and UTe - Vedel et al. 144B (1986) 61
X-ray diffraction (see *$BaMnF_4$*) 144B (1987) 310

PHYSICA C

A–X system (see *InBr*) 144C (1987) 247
